

Wenjie Guan

PhD Student in Statistics

 Ithaca, NY  wg285@cornell.edu  [wenjieguan99](https://github.com/wenjieguan99)  [wenjie-guan-5318ba241](https://www.linkedin.com/in/wenjie-guan-5318ba241)

Summary

PhD student in Statistics at Cornell University advised by Prof. Jelena Bradic. Research interests include machine learning theory, high-dimensional statistical inference, foundation models and transformers, and probabilistic modeling.

Education

PhD	Cornell University , Statistics	Ithaca, NY, USA
	• Advised by Prof. Jelena Bradic	2024 – present
Master's	University of Washington , Statistics	Seattle, WA, USA
Bachelor's	Fudan University , Mathematics and Applied Mathematics	Shanghai, China

Research Interests

- Machine learning theory
- High-dimensional statistical inference
- Foundation models and transformers
- Probabilistic modeling
